Product

GREEN SHIELD

Features

A new product specially developed for stone polishing and care. Under the thermal action of a crystallizing machine paired with a steel wool pad or 3M white pad, it uniformly penetrates the molecular gaps of marble and cures into a high-strength, flexible transparent protective layer—like forming a crystal shield on the stone surface. It boasts powerful anti-efflorescence, anti-dust, and acid-alkali corrosion resistance, along with scrub resistance, scratch prevention, and excellent self-cleaning and stain-resistant properties.

Range of Application

Various types of marble, artificial inorganic terrazzo, terrazzo, granite, concrete, artificial granite, etc.

Method of Application

- 1.Clean the floor and allow it to air-dry naturally.
- 2.Spray Green Shield onto the floor at a dosage of 5-10 ml per square meter, then use a steel wool pad or 3M white pad paired with a crystallizing machine.
- 3.Grind and dry the surface evenly—immediately, a tough crystal shield protective film will form on the floor.
- 4.If there is dust on the floor, clean it thoroughly with a dust mop and repeat Step 3 with Green Shield to make the protective film even more robust and glossy.
- 5.For first-time use of Green Shield, it is generally recommended to repeat the process 2-3 times to achieve a brighter floor surface.
- 6.Finish by dust-mopping the floor to remove any residue. The operation is complete. For daily maintenance, only 1-2 additional coats of Green Shield are needed.

Technical Data

| Net Volume | Packaging | Physical State | Colour | pH |
|------------|--------------------|----------------|--------|-----|
| 1 Gallon | 4 Bottles / Carton | Liquid | White | 3-4 |

Storage and Safety

- The storage temperature should be above 0°C and the container should be well-sealed.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
