Product

KR Marble Kristallux

Features

KR contains unique ultra-fine crystal particles. Activated by the minimal heat generated from friction with a steel wool pad, its active ingredients form a high-strength crystal protective film on the stone surface. Suitable for marble, artificial stone and terrazzo, it instantly creates a hard, luminous crystalline layer on the stone surface, with long-lasting gloss.

Range of Application

Marble, artificial stone and terrazzo.

Method of Application

- 1.Clean the floor and allow it to air-dry naturally.
- 2.Spray KR (5-10 ml per square meter) onto the floor. Use steel wool pads with a crystallizing machine to polish the surface evenly until dry.
- 3.If dust accumulates on the floor, remove it with a dust mop, then repeat Step 2 with KR to enhance the protective film's durability and brightness.
- 4.For optimal results during initial use, repeat Step 2.
- 5.After completion, sweep the floor with a dust mop. For routine maintenance, simply apply an additional layer of KR.

Important Note:

For light-colored stones in humid environments, stainless steel wool pads are recommended.

Technical Data

Net Volume	Packaging	Physical State	Colour	pH
1 Gallon	4 Bottles / Carton	Liquid	White	3-4

Storage and Safety

- The storage temperature should be above 0°C and the container should be well-sealed.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
