Product

MR Marble Gloss Restorer

Features

Rooted in Nordic precision grinding technology, MR contains high-strength, ultra-fine diamond abrasive particles that instantly respond to stone textures, conceal pores and imperfections, and enhance light absorption—achieving a mirror-like reflective effect.

MR is suitable for crystallizing marble, artificial stone, and inorganic terrazzo, boasting cleaning, repairing, and crystallizing functions. As a new concept in stone polishing and care, it quickly repairs micro-pores, forms a dense crystalline layer rapidly, resists weathering and abrasion, and keeps marble brilliantly shiny for the long term.

Range of Application

Natural marble, artificial stone and inorganic terrazzo.

Method of Application

- 1.Shake the product thoroughly before use, then squeeze out an appropriate amount of the MR—approximately 5-10 ml per square meter.
- 2.Use with a crystallizing machine paired with a 3M white pad. If the paste dries too quickly during polishing, spray a small amount of clean water and continue polishing until dry.
- 3.Repeat the operation multiple times depending on the condition of the stone.

Technical Data

Net Volume	Packaging	Physical State	Colour
1000 mL	12 Bottles / Carton	Liquid	Green

Storage and Safety

- The storage temperature should be above 0°C and the container should be well-sealed.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
