Product

MR Marble Polish Paste

Features

MR features unique ultra-fine crystal particles. Activated by the minimal heat generated from friction with a scouring pad, its active ingredients form a high-strength crystal protective film on the stone surface, quickly filling micro-pores, covering stone cracks and fine scratches. Boasting strong adhesion and high wear resistance, it is particularly suitable for renovating, restoring gloss to, and treating heavily worn marble and artificial stone.

Range of Application

Marble, artificial stone and terrazzo.

Method of Application

1. Prior to use, thoroughly shake the product. Pour out an appropriate amount of MR for application—approximately 8–10 ml of paste is required per square meter of floor.
2. Use a crystallizing machine with a 3M white pad to polish the surface until dry.
3. The operation can be repeated multiple times as needed.

Technical Data

Net Volume	Packaging	Physical State	Colour	pH
1 Gallon	4 Bottles / Carton	Paste	Green	3-4

Storage and Safety

- The storage temperature should be above 0°C and the container should be well-sealed.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
