Product

Photovoltaic Panel Cleaner

Features

The Photovoltaic Panel Cleaner is specifically designed for the maintenance and cleaning of outdoor photovoltaic panels. It is formulated with imported surfactants, special-effect additives, chelating agents, corrosion inhibitors, and other compound ingredients.

Range of Application

Suitable for cleaning common contaminants on outdoor photovoltaic panels, such as dust, oil stains, small insects and bird droppings. It removes stains quickly, delivers high cleanliness, and leaves little to no water spots after cleaning.

Method of Application

Dilute with water at a ratio of 1:20 and clean at room temperature; heating the solution for cleaning yields better results. After cleaning, rinse thoroughly with clean water. This product is suitable for both equipment-based and manual cleaning.

Storage and Safety

- Store sealed in original container at room temperature. Do not store or use at a temperature below 5 °C.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Keep out of reach of children and pets. Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. When using the product, please refer to the Material Safety Data Sheet (MSDS) and follow the label instructions on the product packaging.
