### Product

Quick Wax Stripper

### Features

Boasting high-strength penetration and dissolving power, this product quickly and effectively dissolves various waxes and other oily substances. When properly diluted, it can clean both oily and water-based stains from hard floor surfaces.

### Range of Application

Various floor types, including marble, terrazzo, PVC, and similar surfaces.

### Method of Application

1. Dilute the product with water at a ratio of 1:5 to 1:8. First, test the wax-stripping effect to determine the optimal dilution ratio.
2. Apply the diluted wax stripper to an area of 10 square meters each time, allowing it to soak for 10 minutes while keeping the floor surface moist.
3. Use a single-disc floor machine with a black pad to strip the wax.
4. Rinse the floor 1-2 times with clean water, then allow it to dry completely before proceeding with the waxing process.
