Product

RV-81 Marble Polishing Powder

Features

RV-81 Marble Polishing Powder is designed for polishing marble and artificial stone. It quickly removes embedded stains, covers stone grain cracks, and forms a radiant, lustrous crystalline layer, bringing a full, translucent visual effect to your floors.

Range of Application

Marble with a noticeable blend of silicates and silica in its calcium carbonate composition (i.e., higher-hardness varieties) such as: Perlato Svevo, Egyptian Yellow, Yashi White, Jueshi White, Wood-Grain Stone, Emperador, and artificial marble.

Method of Application

1. Take a small amount of RV-81 onto the floor and add a little water.
2. Use a red pad or animal hair pad to grind it into a yogurt-like consistency, continuing to work until the floor surface becomes clear.
3. If additional polishing powder is needed, keep adding water to maintain the yogurt-like texture of the polishing mixture.
4. Once the process is complete, clean the floor with a clean scouring pad.

Storage and Safety

- Store sealed in a cool and well-ventilated environment, avoiding direct sunlight.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
