Product

TR Vitrified Tile Gloss Restorer

Features

TR features unique ultra-fine crystal particles that adhere to rough surfaces, repair damage to the surface crystal layer, and instantly restore moisture and luster. It enhances brightness and hardness, protects the stone surface, and maintains a bright, clear mirror-like texture.

Range of Application

Vitrified tiles, full-body tiles, glazed tiles, inorganic terrazzo, artificial quartz stone, and microcrystalline stone.

Method of Application

- 1.Clean the floor and allow it to air-dry naturally.
- 2.Spray TR onto the floor (5-10ml per square meter). Use a 3M white polishing pad and polish evenly with a crystallizing machine until dry.
- 3.If there is dust on the floor, clean it thoroughly with a dust mop, then repeat Step 2 with TR to make the protective film stronger and more glossy.
- 4.For the first use of TR, it is generally recommended to repeat the process 1-2 times to achieve a brighter floor surface.
- 5.Finish by cleaning the floor with a dust mop. For daily maintenance, simply apply a fresh coat of TR.

Technical Data

Net Volume	Packaging	Physical State	Colour
1000 mL	12 Bottles / Carton	Liquid	White

Storage and Safety

- The storage temperature should be above 0°C and the container should be well-sealed.
- Avoid contact with eyes. If it accidentally enters eyes, rinse immediately with plenty of clean water for at least 15 minutes; seek medical attention if irritation persists.
- Do not take orally. If swallowed, do not induce vomiting; rinse mouth with water and seek immediate medical advice, bringing this data sheet if possible.
- Keep out of reach of children and pets. Do not smoke, eat, or drink during application to avoid ingestion.
- TO BE USED EXCLUSIVELY BY PROFESSIONALS. Ensure the work area is well-ventilated during application. It is recommended to use personal protective equipment. Read the Method of Application before use.
