Product

Tire Mark Remover

Features

This product is a concentrated, specialized cleaner for tire mark contaminants, formulated with high-molecular polymers, various high-activity surfactants, and oil-dispersing, dissolving and degreasing agents. It quickly and effectively removes various stains adhering to floor surfaces, including tire marks, rubber carbon black stains, engine oil, dirt and dust.

Method of Application

1. Dilute the product with water at a ratio of approximately 1:40-80, then use it in a floor scrubber or a manual spray bottle. For heavy stains, reduce the dilution ratio. Wet the stained surface for 2-3 minutes before scrubbing with cleaning tools.
2. For cleaning car tire surfaces: After cleaning with the product, rinse thoroughly with water, then maintain the tires with a tire shine agent.
